

# AutoStore™ Awarded Excellence of the Year during the night Le Fonti Awards

Milan, 8 June, 2022 - Leading robot technology company, AutoStore, is proud to announce that it has been recognized **Excellence of the Year** in the category “Innovation & Leadership Robotics Technology” during the famous ceremony Le Fonti Awards, which takes place in the prestigious palace of the Italian Stock Exchange in Milan.

Le Fonti AWARDS® is an annual awards ceremony recognizing organizations that demonstrate corporate excellence in the fields of business innovation, leadership, technological achievement and employee engagement. Broadcast on TV and covered by the most relevant media (Fox News Channel, CNBC, Abc News, la Stampa, La Repubblica, Il Mondo...), the event has been recognized as one of the world's leading ceremonies of business awards and certified by a business-focused community of over 10.5 million people.

During the latest ceremony of Le Fonti which took place on 24th May 2022 in Italy, in the prestigious palace of the Italian Stock Exchange in Milan, AutoStore was recognized as Excellence of the Year and received the "Innovation & Leadership, Robotics Technology award". AutoStore was selected for demonstrating deep competence and professionalism, a pioneering approach with a focus on innovation, and for continuous support of customer success and sustainability.

"It's a great honor to be recognized in this way by the entire community of Le Fonti, and we are very proud to see that our system is so appreciated by professionals all over the world." confides Francesco Mantegna, Managing Director and BDM Italy at AutoStore. "We have a keen focus at AutoStore to provide a best-in-class solution that makes warehouse automation simple and easy to integrate with existing technologies. It is exciting to receive this award and we are eager to continue innovating in the pursuit of streamlined automation."

AutoStore invented and continues to pioneer Cube Storage Automation™: the densest storage solution in existence. The company provides the market a leading robotics technology designed and revamped to optimize storage process and redefine retail supply chain, allowing customers to achieve measurable sustainability goals quickly within their operations. AutoStore is known for not only minimizing the environmental footprints of Fortune 500 retailers, but also increasing productivity and profits while saving energy.

### **About AutoStore |[www.autostoresystem.com](http://www.autostoresystem.com)**

AutoStore, founded in 1996, is a robot technology company that invented, and continues to pioneer, Cube Storage Automation – the densest product/inventory storage solution in existence. The company's focus is to marry software and hardware with human abilities to create the future of warehousing. AutoStore is global, with more than 900 systems installed in over 40 countries over a wide range of industries. All sales are designed, installed and serviced by a network of qualified system integrators – which AutoStore calls 'partners'. The company's headquarter is in Nedre Vats (Norway), with offices also in Oslo (Norway), in the U.S., UK, Germany, France, Spain, Italy, Korea and Japan.
